

DESIGN CONCEPT

£440

The Design Concept service is a perfect start to redesigning a space - where we explore ideas and decide on the style, mood, colours, and overall feel of a room or project space. We will create a moodboard which will then be your go-to reference point for purchasing, installing and styling your space in your own time and budget with confidence.

Collaboration - every step of the way we will share ideas, visuals, designs making sure that the end result is an organic extension of everything we've discussed, decided for and against – there is no grand reveal moment, instead the ideal design will develop throughout the whole process.

- Consultation

An initial chat to develop and confirm the brief and budget and also share inspiration/styles. This is your time to add me to Pinterest boards, share screengrabs and tell me about your loves, likes and loathes.

- Concept boards

You will receive 3 different ideas illustrating how we can approach your room design, these will detail; colour, furniture styles, textures and mood.

- Feedback

You'll give me your honest thoughts and opinions on the boards and from there I will develop our design.

- Moodboard delivery

A final design concept is realised with example furniture, paint colours, fabric.

DESIGN PLAN

£990

The Design Plan incorporates the Design Concept service and continues with additional guidance, plans and practical advice.

- Product sourcing - Providing 3 options for 5 key items (i.e sofa, coffee table, armchair, cushions, artwork), all within agreed budget and required availability. Links and delivery/pick up information provided.

- Sample board - Key finishes; fabric, tiles, wall colour, presented to test, feel and inspect on site.

- Floorplan with furniture (to scale) - Scale plan with intended furniture to show and test placement

- 2D & 3D Visual render of design - Visuals to illustrate and show the design to scale -

- Onsite meeting to present design progress
